Q 37 Read the following passage and Answer the questions given below:

Here is an excerpt from the memoirs of Sitaram Pande, "*From Sepoy to Subedar*":

It chanced that about this time the Sarkar sent parties of men from each regiment to different garrisons for instructions in the use of the new rifle. These men performed the new drill for some time until a report got about by some means or the other, that the cartridges used for these new rifles were greased with the fat of cows and pigs. The men from our regiment wrote to others in the regiment telling them about this, and there was soon excitement in every regiment. Some men pointed out that in forty years' service nothing had ever been done by the Sarkar to insult their religion, but as I have already mentioned the sepoys' minds had been inflamed by the seizure of Oudh. Interested parties were quick to point out that the great aim of the English was to turn us all into Christians, and they had therefore introduced the cartridge in order to bring this about, since both Mahommedans and Hindus would be defiled by using it.

1. Who translated the writing of Sitaram Pande into English?
2. Why did the sepoys rebel against the English?
3. Where did the Sepoy Mutiny begin? [1 + 2 + 1 = 4]

Q 38 Read the following passage and Answer the questions given below:

Given here are excerpts from the book *Majha Pravaas*, written by Vishnubhatt Godse, a Brahman from a village in Maharashtra. He and his uncle had set out to attend a yajna being organised in Mathura. Vishnubhatt writes that they met some sepoys on the way who told them that they should not proceed on the journey because a massive upheaval was going to break out in three days.

The sepoys said: the English were determined to wipe out the religions of the Hindus and the Muslims ... they had made a list of eighty-four rules and announced these in a gathering of all big kings and princes in Calcutta. They said that the kings refused to accept these rules and warned the English of dire consequences and massive upheaval if these are implemented ... that the kings all returned to their capitals in great anger ... all the big people began making plans. A date was fixed for the war of religion and the secret plan had been circulated from the cantonment in Meerut by letters sent to different cantonments.

1. Which massive upheaval is being talked about in the above passage?
2. Who was Vishnubhatt Godse? List one of his works.
3. Who had made a list of eighty-four rules?
4. What the reaction of the Indian rulers towards this list?

Q 39 Read the following passage and Answer the questions given below:

Here is an excerpt from the memoirs of Sitaram Pande, “*From Sepoy to Subedar*”:

It is my humble opinion that this seizing of Oudh filled the minds of the Sepoys with distrust and led them to plot against the Government. Agents of the Nawab of Oudh and also of the King of Delhi were sent all over India to discover the temper of the army. They worked upon the feelings of sepoys, telling them how treacherously the foreigners had behaved towards their king. They invented ten thousand lies and promises to persuade the soldiers to mutiny and turn against their masters, the English, with the object of restoring the Emperor of Delhi to the throne. They maintained that this was wholly within the army’s powers if the soldiers would only act together and do as they were advised.

1. Who was Sitaram Pande?
2. Who persuaded him to write his memoirs?
3. How did the agents persuade the sepoys to rebel against the British? [1 + 1 + 2 = 4]

Q 46 Read the source and answer the questions given below:

One widowed spinner wrote in 1828 to a Bengali newspaper, detailing her plight:

To the Editor,

I am a spinner. After having suffered a great deal, I am writing this letter. Please publish this in your paper ... When my age was ... 22, I became a widow with three daughters. My husband left nothing at the time of his death ... When we were on the verge of starvation God showed me a way by which we could save ourselves. I began to spin on *takli* and *charkha*...

Now for 3 years, we two women, mother-in-law and me, are in want of food. The weavers do not call at the house for buying yarn. Not only this, if the yarn is sent to market it is still not sold even at one-fourth the old prices.

I do not know how it happened. I asked many about it. They say that Bilati 2 yarn is being imported on a large scale. The weavers buy that yarn and weave ... People cannot use the cloth out of this yarn even for two months; it rots away.

Mahatma Gandhi wrote:

By education I mean an all-round drawing out of the best in child and man – body, mind and spirit. Literacy is not the end of education nor even the beginning. It is only one of the means whereby man and woman can be educated. Literacy in itself is not education. I would therefore begin the child's education by teaching it a useful handicraft and enabling it to produce from the moment it begins its training ... I hold that the highest development of the mind and the soul is possible under such a system of education. Only every handicraft has to be taught not merely mechanically as is done today but scientifically, i.e., the child should know the why and the wherefore of every process.

Q 46 Read the source given and answer the following question:

Tarabai Shinde wrote:

Isn't a woman's life as dear to her as yours is to you? It's as if women are meant to be made of something different from men altogether, made from dust from earth or rock or rusted iron whereas you and your lives are made from the purest gold. ... You're asking me what I mean. I mean once a woman's husband has died ... what's in store for her? The barber comes to shave all the curls and hair off her head, just to cool your eyes. ... She is shut out from going to weddings, receptions and other auspicious occasions that married women go to. And why all these restrictions? Because her husband has died. She is unlucky: ill fate is written on her forehead. Her face is not to be seen, it's a bad omen.

Q 33 Read the source and answer the questions below:

Prime Minister Jawaharlal Nehru was a great supporter of the planning process. In a letter of 22 December 1952, he said that:
... behind the First Five Year Plan lies the conception of India's unity and of a mighty co-operative effort of all the peoples of India ... We have to remember always that it is not merely the governmental machinery that counts in all this, but even more so the enthusiasm and co-operation of the people. Our people must have the sensation of partnership in a mighty enterprise, of being fellow-travelers towards the next goal that they and we have set before us. The Plan may be, and has to be, based on the calculations of economists, statisticians and the like, but figures and statistics, very important as they are, do not give life to the scheme. That breath of life comes in other ways, and it is for us now to make this Plan, which is enshrined in cold print, something living, vital and dynamic, which captures the imagination of the people.

Nehru wrote in a letter to the Chief Ministers of states:

... we have a Muslim minority who are so large in numbers that they cannot, even if they want, go anywhere else. That is a basic fact about which there can be no argument. Whatever the provocation from Pakistan and whatever the indignities and horrors inflicted on non-Muslims there, we have got to deal with this minority in a civilized manner. We must give them security and the rights of citizens in a democratic State.
